Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach two separated conductive plates on the first side surface and a microstrip probe on a second side surface of the dielectric substrate, as recited in claim 12; the cited prior arts also fail to teach a backshort cap attached to the second side surface, wherein the backshort cap has a central portion at a height in relation to the microstrip probe that is less than $1/2$ of a wavelength for a frequency at which the transition operates, as recited in claim 17; the cited prior arts also fail to teach a backshort cap attached to the second side surface, wherein corners of the waveguide and backshort cap are in alignment and the dielectric sheet is arranged between the waveguide and backshort cap, as recited in claims 20 and 22; and the cited prior arts also fail to teach a backshort cap of a height in relation to the microstrip probe, as recited in claim 23.

2. Claims 12-23 are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
